IDENTIFIERS Preliminary Unit Packs

ABSTRACT

The Preliminary Unit Pack (PUP) experiment was an attempt to identify non-starters in correspondence education early in the program stages. An initial pack of resources sent to enrollees was reduced in size and a response to this material required prior to formal enrollment. A reduction of the non-starter rate was achieved in the experimental sections. Data collected in support of that experiment are presented in this volume; the experiment is described in Volume 1. (DAG)

15		Scoring of reason
16	PROGRESS	Asmts. received by 31 August 1975
17		Asmts. received by 31 December 1975
18		Asmts. received by 30 June 1976
19		1975 Enrolled subjects' asmts.
20		1976 Enrolled subjects' asmts.

BASE DATA LAYOUT AND CODING EXPLANATION 1.

FILE Only file numbers of enrollees have been given to secure their anonymity. Numbers are in the 1975 Yellow Activity Section (servicing courses of the School of Business and Administrative Studies) series. The same (75) series is used by each of the other three College Activity Sections, but the prefix (Y) has been omitted. Files represent all new (to the) College enrolments during February, 1975. The numbers are not strictly consecutive as they represent only enrollees in eight (sampled), rather than all, courses offered by the College for that School.

1975 ENROLT. The first column shows the course number whilst the following letters indicate the individual subject enrolments in that course. Only 1975 enrolment details are given, although 1976 details are provided in the third and fifth columns under "Progress". Detailed information of subjects is given in the "Course Structure" sheets following. There is no minimum enrolment requirement, although there is a ceiling of the equivalent of twelve hours weekly oral instruction. Whilst enrolments are accepted and effected throughout the calendar year, January, February, and March are peak enrolment months.

FRSNL. DATA Only six pertinent details have been extracted for each enrollee. Only those shown in the first and last three columns are objective, the second and third are based upon judgements likely to be made by an enrolling teacher.

First Column: The age of the enrollee is shown by grouping year of birth.

0 = 1957 or later;
1 = 1956;
2 = 1954 and 1955;
3 = 1950 to 1953;
4 = 1945 to 1949;
5 = 1940 to 1944
6 = 1935 to 1939;
7 = 1925 to 1934;
8 = 1915 to 1924; and
9 = 1914 and earlier.

Second Column: The extent of the relationship of the enrollee's occupation to the course he chose was judged on a rising scale from nought to nine. Where occupation was given as Unemployed, Retired, Housewife, or similar, a nought-coding was given.

Third Column: A grading, on a nought to nine scale, was arbitrarily given for ability to fill-in the enrolment form clearly, carefully, and correctly.

Fourth Column: An indication of the sex of the enrollee was given by allocating nought to females and one to males. No attempt at scoring was made.

Fifth Column: The digits represent the number of years of successful secondary and post-secondary (equivalent to) full-time education. The digit nine represents nine or more years.

Sixth Column: The digits represent the number of days between the date of receipt of the completed enrolment application and the date of despatch of the first issue of lesson material. Nine indicates nine or more days.

PUP None of the three columns under this heading have been used where the enrollee had not been sent a Preliminary Unit Pack upon enquiring about a course of study. "P" in the first column signifies that such a pack had been given or mailed to the enrollee. Whilst, as a general practice, where this had occurred and the enrollee had not submitted a preliminary assignment, the enrolment form was returned, in two cases the return-action, in error, had not been taken. Only one answer, as to the enrollee's purpose in commencing the course of study, was checked. Where occupational advancement was given as the prime reason, "O" is shown in the second

of the three columns. "N" is used to indicate that other than occupational advancement were given as the prime reason. The third column gives a very crude grading as to the perception and motivation of the enrollee. Whilst crude, it is a grading which could be anticipated if enrolment-quotas were imposed.

PROGRESS In an attempt to show proportions, the number of multi-question assignments was chosen as the measure; the first three columns show the number of accepted (as satisfactory attempts) assignments lodged by 31 August 1975, 31 December 1975, and 30 June 1976, respectively. The fourth and fifth columns represent a conversion of subjects in which enrolled, to subject-assignments to be submitted for those subjects, ignoring supervised tests and examinations. The fifth column shows the equivalent of the initial February 1975 enrolment, and the last column the equivalent of the 1976 re-enrolment, if any.

APPENDIX B

COURSE STRUCTURE: 0617 TRANSPORT ADMINISTRATION CERTIFICATE

#	No.	Hrs.	Asmts.	Title

APPENDIX E

NEW SOUTH WALES

DEPARTMENT OF TECHNICAL EDUCATION

COLLEGE OF EXTERNAL STUDIES

SCHOOL OF BUSINESS AND ADMINISTRATIVE STUDIES

PRELIMINARY LESSON UNIT

This preliminary unit is important for *you*.

Important *not only* because of its content, *but also* because:

- You must answer the questions set.
- You must send in your answers with your enrolment application form to the College of External Studies.

The unit is divided into two sections:

Section 1. Information on general administrative and assessment procedures.

Section 2. A comprehension exercise relevant to your intended studies.

At the end of each section are the questions which must be answered and returned to us with your enrolment form.

Sorry, but the College cannot accept your enrolment application UNLESS AND UNTIL we receive your answers to these questions.

By studying *your* answers, we hope to answer two questions we have set *ourselves:*

1. Should we encourage you to study bridging lessons?
2. Do we need to offer you our help beyond the normal lesson programme for your chosen course?

SECTION 1

LEARNING BY CORRESPONDENCE

The aim of this information is to assist you as a correspondence student to get to know what has to be done, and how it should be done, if you are to handle your studies smoothly and successfully. Your careful attention to the points mentioned is invited and your reference to them from time to time during your correspondence studies is recommended.

Correspondence Education is largely a process of private study from lesson material that has been written in a self-instructional manner. It is usual in self-instructional material for a full subject to be broken down into a number of smaller parts known as lesson units and for each lesson unit to contain a set of exercises or assignments that the student works and sends back to the College.

By means of written assignments submitted, the correspondence student establishes and develops contact with his correspondence teacher. His teacher's role is one of commenting on and correcting each assignment. Students and teachers although separated by distance get to know each other quite well through their two-way correspondence.

ORGANIZING YOUR STUDY PROGRAMME

Most jobs can be done better and more easily if tackled in an organized way. Correspondence study is no exception. You are your own organizer and know the time you have available and the facilities you have for study.

Organizing yourself to make the best use of your time and facilities is your first task. Try to arrange regular periods of study each week. Set aside these study periods and guard them from interference. Each study session should be about two hours' duration and at first could be broken up into 40 minute periods with short breaks between each period. It is often a good idea to change subjects at the end of each period. After a while you will find that you can expand the 40 minutes to an hour or even more. The number of study periods you organize each week will be determined by your own learning pace and the number of subjects you are studying concurrently.

You should not attempt concurrent study of more subjects than your available time allows. Even where the Stage One of your selected course consists of three subjects you may enrol for less than three.

If your study programme consists of more than one subject, work lesson units in the different subjects in rotation so that you progress through all subjects at about the same rate.

Have all your working materials handy: textbooks, lessons, paper and pens. Don't waste time looking for things that should be readily available.

From the synopsis for each subject you will see how many units are in each subject and when the tests and examinations are held. You should calculate how long you need to work a lesson unit, e.g., a week, in order to complete all units by the end of year examination period. Send lesson assignments in singly as you complete them. Do not wait until you have completed a batch of lessons.

Note - The College may refuse to correct assignments from a batch of lessons submitted simultaneously.

APPROACHING EACH LESSON UNIT

First try to get a general idea of the subject matter of the lesson unit. Read the unit through without worrying too much about details or difficulties.

After this general reading, study each topic section by section. Without looking at it, try to recall what the section you have just read is about. This will help you to concentrate.

You should learn the definitions and study diagrams and blueprints and read the recommended sections of the textbook; and make your own notes to develop an understanding of the subject matter.

Beware of merely memorizing. You will remember what you understand, but you cannot understand what you have merely memorized.

WORKING YOUR ASSIGNMENTS

Under the heading "Work to be Forwarded for Comment" you will find a set of questions. You should answer all these questions and forward your answers to the Principal, College of External Studies, for correction and comment.

Before attempting your answers, read each question carefully to make sure you know what is required. Try to answer each question without referring to your lesson unit.

If you find you cannot answer a question,re-study the relevant part of the lesson unit;then answer the question as well as you can. Always make an attempt. Your teacher will clarify points which you have not understood.

Use your own wording rather than that of the lesson unit. The notes you made when studying the lesson unit section by section will be useful as an aid to answering the questions.

SENDING IN YOUR ASSIGNMENTS

The College of External Studies is the administrative link between correspondence student and teacher. Its role is to send out the lesson material to be studied and to return assignments to students after comment and correction by teachers. The linking role of the College depends on your co-operation for its effective functioning; therefore, you are requested to:

- Attempt answers to *all* questions asked at the end of each lesson unit.
- Write the lesson unit number and question number at the beginning of your answer.
- Write in ink and on one side of the paper only, leaving a 50 mm (2 in approx.) margin for teachers' comments.
- Make sure you print your name, address, subject, and the unit number on the first sheet of answers and also on the Marks Record Slip to be pinned to your assignment.
- Give all the required details on the Marks Record Slip in block letters and pin it securely to the lesson unit assignment.

USING CORRECTED UNITS

Your assignments will be corrected, commented on, and returned to you as promptly as possible.

When you receive a corrected assignment, study carefully the corrections and comments and advice given by your teacher. From his corrections and comments you will be able to improve the quality of the work you are doing in later units.

By going back over the lesson unit for which you have received the corrected assignment you will reinforce your knowledge of it and be assisted to a better understanding of the subject.

If you have a learning difficulty which you cannot overcome, ask your teacher about it by way of a note attached to your next assignment submitted. Your teacher is anxious to help you progress and will welcome the opportunity to help solve your difficulties.

USING A NOTEBOOK

In most subjects you should keep a notebook as an aid to methodical study and examination preparation. The loose-leaf type of notebook is generally the most useful. Your loose-leaf notes can then be inserted between the sheets of the units.

In compiling your notes, a good suggestion is to make all your summaries on the right-hand page, leaving the left-hand page for supplementary notes and exercises.

ASSESSING FOR A PASS

Subjects which you may be studying are either assessed progressively through the year by "Sectional Tests" or by an examination at the end of the year.

In both cases the final assessment contains a weighting for class marks gained during the year. For external students this is based on marks gained in units submitted.

SECTIONAL TESTS

Those subjects assessed by "Sectional Tests" are divided into three approximately equal sections and each is examined separately. These tests are held in May, August and November.

Failure in one sectional test only requires you to repeat the work in that section, e.g., if you pass sectional Test 1 in May but fail Test 2 in August you only have to repeat Section 2 in November.

At each test date, tests are set for all sections, so that students who enrol late in the year or those who failed a test previously will have a test to sit for.

It is not possible for students to sit for more than one sectional test in each subject at the one time. For example, if you enrol in December and finish all the units in time for the May test you will only be able to sit for the first sectional test, not all three. Similarly, students who fail Test 1 in May will only be able to sit for Test 1 in August.

Applications to sit for tests are forwarded to students for completion in time for them to apply to sit.

In general, students in the Sydney metropolitan area are expected to sit for sectional tests at Sydney Technical College. Suburban technical colleges are not obliged to supervise sectional tests for external students but will usually do so if they have staff available.

Students outside the Sydney area will be accommodated for tests at their nearest technical college.

Students from remote areas or those with physical handicaps can make arrangements for private supervisors.

Deferred examinations are not set for sectional tests.

Listed in the appendix to Section 1 are the subjects at present assessed by sectional tests.

END OF YEAR EXAMINATIONS

In subjects assessed at the end of the year, examinations are usually held in the last week in October or the first fortnight in November.

Failure in these examinations means that you must wait until the same time next year to resit.

In general, these exams have the same supervision rules as sectional tests, but as students at other technical colleges will be sitting for the same examination at the same time, external students have less difficulty arranging supervision at suburban technical colleges.

In some advanced subjects a deferred examination is set usually in January for students who went very close to a pass.

PREPARING FOR EXAMINATIONS

Plan a timetable for revision.

Try to finish working your lesson units at least a month before the date of your examination to allow about four weeks for your revision of the whole course.

If you are preparing for examinations in more than one subject, allocate some time to all subjects. Do not spend all your revision time studying for your first paper.

To change from revision of one subject to another in itself gives you some relaxation and makes each study period more valuable. Do not try to study for too long at any one time. Short, frequent periods of study at regular intervals will be more valuable than long exhausting periods.

HOW TO WORK EXAMINATION PAPERS

Don't panic if the examination paper, on first reading, appears to be too difficult or requires knowledge you think you lack. Examiners often want to discover not only what you know, but how well you can apply what you do know in unexpected situations. A closer, more careful reading will show that the paper is set on familiar work with a slightly different approach.

Many students fail to pass examinations simply because they ignore the three basic rules, which are:

· READ THE WHOLE PAPER CAREFULLY

Take full advantage of information in the examination paper, even in questions you decide not to attempt. A discarded question may remind you of aspects of your chosen question.

Similarly, a problem posed in one question (discarded), may remind you of a method of solving a problem in another (compulsory, but baffling) question.

Jot these ideas down on the examination paper beside the questions as they come to you.

DO WHAT YOU ARE TOLD TO DO

Follow directions

This is particularly important with a paper which says:

"Question 1 is compulsory."

"Do no more than two questions from Section 1."

"One question at least must be attempted in each section."

Make a timetable

(i) Allot a definite time to be spent on each question and do not exceed it. If the answer is unfinished, leave it and return to it later.

(ii) Allocate time to a question in proportion to the marks it is worth.

(iii) Leave some time up your sleeve for returning to unfinished answers and checking the whole paper.

(iv) If you find yourself running out of time and unable to finish the question, don't leave your answer up in the air. List or outline the points you would have discussed fully had time allowed.

Check questions on the paper before and after answering them

If there is a choice of questions, choose those you are confident of being able to handle, and do them first. Mark off what you propose to answer (with, say, /); when you have finished your answer, check it off on the paper (with, say, X). Good answers earn most marks, so make sure of the marks you *can* get before going after those you only *may* get. Confidence and the warming up in thinking and writing gained in answering these questions will help you in the others.

Ensure that you attempt the full number of questions required, because questions not attempted mean marks thrown away.

If you are required to answer five questions, each worth 20 marks, and you answer only three questions, you cannot earn more than 60 marks, even if you gain full marks for each question. If you attempt all five questions, and gain an average of 15 marks out of 20 for each question, you earn a total of 75 marks.

ANSWER THE QUESTIONS YOU ARE ASKED

Every question has a *definite point*, which you must grasp before you can usefully attempt an answer.

For example, if the question asks you to *evaluate the importance* of a man's work, it is useless simply to *give an account* of his work. If the question asks "What were the *economic* causes of the First World War?", then any reference to Sarajevo or Prussian militarism is irrelevant.

Usually the question contains a *"key" word or phrase* that determines or limits the area to be explored. Look for it and underline it. In the first example above, it is "evaluate the importance"; in the second, it is "economic".

Sometimes the key word indicates that a particular approach is required. Recognize that a different treatment is being asked for by such keywords as *"describe"*, *"explain"*, *"contrast"*, *"evaluate"*, and be ready to select from, and organize, what you have learned so that it slants towards the question.

Before you write, plan your answer. List and arrange the points you will need to make. Don't waste time writing a page, only to discover that this exhausts your knowledge with two pages yet to be filled.

Check your answer; even the simplest-looking question may contain traps for the unwary.

Present your answers to their best advantage. Remember to:

(a) Use *space* in setting out. Start a new page for each question. Leave three or four lines between parts of the one question.

(b) Write legibly.

(c) Do not waste time in rewriting the question on your answer paper; identify it by correct numbering.

TEXTBOOKS AND LIBRARY SERVICES

The enclosed material gives you details of textbooks or reference books or both which students are recommended either to purchase or read. At various points throughout your course there may be other references to books which the writer of the course, or your teacher, thinks it useful for you to consult. These books may be available to New South Wales students either in libraries outside the Department of Technical Education or in Departmental libraries. You are advised to try both sources, and details about where to go are given in this circular.

Note. - Students resident in Papua and New Guinea should enquire about borrowing books from the Port Moresby Public Library. Interstate students should use the library facilities, similar to those described below, which are available in their *own* States.

THE PURCHASE OF TEXTBOOKS

If you are unable to obtain locally the textbooks necessary for your correspondence course you should write to a leading bookseller in a capital city. Very often with the introductory material issued to you there is a list of books required for your course and an indication where a particular book may be obtained.

The College of External Studies does not purchase textbooks for its students. You should, therefore, get in touch with one of the booksellers listed below.

1. The University Co-operative Bookshop Ltd,

   Mail enquiries to:

   The University Co-operative Bookshop Ltd,
   76 Bay Street,
   Broadway, N.S.W. 2007.

   Personal enquiries to:

   The University Co-operative Bookshop Ltd,
   Sydney Technical College,
   831 George Street,
   Sydney, N.S.W. 2000.

2. Dymock's Book Arcade Ltd,
   424-426 George Street,
   Sydney, N.S.W., 2000.

3. Grahame Book Co. Pty. Ltd,
Hunter Street,
Sydney, N.S.W. 2000.

The above firms have no official connection with this College. They are separate organizations. Therefore, if you approach one of these firms about books, and you do not receive a satisfactory reply, you should try another bookseller.

LIBRARY SERVICES

NON-DEPARTMENTAL LIBRARIES

SHIRE OR MUNICIPAL LIBRARIES

If there is a shire or municipal library in your district, you are advised to consult this library first. Borrowing facilities are good and libraries will try to secure books for you if possible.

PUBLIC LIBRARY OF NEW SOUTH WALES

There is a Country Reference Section in the Circulation Department of the Public Library of New South Wales. This Section provides a library information service for residents of country municipalities and shires which have no public library. Applications to borrow from this Section should be made to the Principal Librarian, Public Library of New South Wales, Macquarie Street, Sydney, 2000.

DEPARTMENTAL LIBRARIES

TECHNICAL COLLEGE LIBRARIES

Library services are not provided at every technical college in New South Wales, but if you live near one of the following colleges, whose book collections are quite comprehensive, you should make application to join the library.

METROPOLITAN

Bankstown Technical College	500 Chapel Road, BANKSTOWN
East Sydney Technical College	Forbes Street, DARLINGHURST
Granville Technical College	William Street, GRANVILLE
Gymea Technical College	Kingsway, GYMEA
Meadowbank Technical College	Constitution Road, MEADOWBANK
North Sydney Technical College	Pacific Highway, GORE HILL
Randwick Technical College	Darby Road and King Street, RANDWICK
Seaforth Technical College	Sydney and French's Forest Roads, SEAFORTH
St George Technical College	Princes Highway, KOGARAH
West Sydney Technical College	Crystal Street, PETERSHAM

COUNTRY

Broken Hill Technical College	Argent Street, BROKEN HILL
Newcastle Technical College	Maitland Road, TIGHE'S HILL
Wollongong Technical College	Lysaght Street, FAIRY MEADOW

If you apply to borrow from a technical college library you need to produce evidence that you are registered as a student of the College of External Studies, and on being accepted as a borrower, must comply with the library rules.

SYDNEY TECHNICAL COLLEGE LIBRARY

The main library service offered by the Department of Technical Education to its country correspondence students is through the Sydney Technical College Library. This library contains books recommended for reference and further reading in the correspondence courses as well as most of the basic textbooks. You are expected to buy your own textbooks. If, however, you cannot obtain a textbook, you should inform the Librarian of the circumstances. Books requested for loan by students will be sent to them, provided they live more than 20 miles from the Sydney Technical College.

Correspondence students may also borrow non-course books from the Sydney Technical College Library, though you are advised to try to obtain these from local libraries first.

SYDNEY TECHNICAL COLLEGE LIBRARY BORROWING PROCEDURES

REGISTRATION AS A BORROWER

Correspondence students living in country areas of New South Wales are required to complete and sign the yellow Student's Registration Card which is enclosed with this booklet. The completed card must then be posted to:

The Librarian,
Sydney Technical College,
BROADWAY, N.S.W. 2007

HOW TO BORROW A BOOK

Enclosed with this booklet you will find two request forms; others will be supplied when needed. When you want to borrow a book or books, you must complete one of these forms, giving details of the author and title of the book or books, the names of alternative books if the first preferences are not available and, of course, your own name and address. You must also clearly stipulate on the form whether you want books sent and returned by rail or post. The completed form should then be posted to the Librarian at Sydney Technical College.

The book or books requested will be sent on loan for a period of 14 days from the date you receive them, with provision for renewal for a further 14 days if they are not in demand. If you want to renew the books, application to the Librarian has to be made a few days before the books are due for return. A despatch notice sent under separate cover will notify you when the books have been sent, and if the books do not arrive in a reasonable time after you receive this notice, or if they have been damaged in transit, you must notify the Librarian. Replacement cost of books damaged or lost whilst in your possession must be borne by you or you must replace the publications.

HOW TO RETURN A BOOK

A fortnight from the date of receiving a book or book, you must return them to the Librarian at Sydney Technical College. Books are to be carefully wrapped so that they will suffer no damage in transit. Each time a book or books are returned, you must also complete a notice of return form and send it to the Sydney Technical College Librarian. Post this form separately and do not include it in the parcel of books. The notice of return form is not to be used to request new books. The request form is to be used for this purpose.

POST AND RAIL RATES

Postal: Charges are the same as those applying to any books sent through the mail.

Rail: Books forwarded to you by rail will be carried free of charge by the New South Wales Public Transport Commission on the return journey under the following conditions:

1. At the time of consigning, it is declared by you on the consignment note that each package contains books only.

2. Each package is open at both ends.

3. Each package is addressed to the Librarian, Sydney Technical Library, No. 1 Broadway, BROADWAY, N.S.W. 2007.

4. The name and address of the sender and the words, *Books only*, are clearly written on the package.

Note:- When returning books, it may be necessary to tell the Station Master the day on which you collected them. In case the parcel goes astray, make sure you retain the copy of the rail consignment note which the Station Master will give you.

FURTHER INFORMATION

For further information about these courses, or any others offered by correspondence, students should write to the following address:

The Principal,
College of External Studies,
Department of Technical Education,
Goulburn Street,
Darlinghurst, N.S.W. 2010.

When your enrolment is completed, if you require information on administration or examination matters, write direct to the Principal at the address above and not to your correspondence teacher.

WORK TO BE FORWARDED WITH YOUR ENROLMENT FORM

Answers to be on ruled foolscap paper and affixed securely to enrolment application.

Please answer each question and return to the College of External Studies.

1.1 In a few words please let us know your expectations from successfully completing your correspondence course.

1.2 If you had to rearrange the information in Learning by Correspondence section you have just read, would you eliminate some portions or expand others or leave it alone? Give reasons for your decision.

1.3 Read again the portion headed "How to Organise Your Study Programme" and then prepare a list of the items it discusses.

1.4 List what you foresee to be the advantages of studying by correspondence.

1.5 If the need arises what matters should you raise with your subject teacher when you send your completed assignments, and what matters should you communicate by separate correspondence to the Principal?

1.6 Write about five lines on each of the following questions.

(a) Why should you read the whole examination paper carefully even if you do not intend to attempt some questions.

(b) What type of directions are you likely to find on an examination paper?

(c) How do you allocate the time available among examination questions?

(d) How do you determine what an examination question asks you to do?

1.7 How many worked lesson units should you forward at once?

1.8 Explain in about five lines how to register as a borrower with Sydney Technical College Library.

1.9 How long can a book be kept?

For the following questions write the alphabetic symbol of the correct statement beside the question number.

1.10 Students unable to obtain textbooks locally should:

(a) Write to the College of External Studies and ask that these books be forwarded.

(b) Write to the Sydney Technical College Library and ask that they be purchased on your account.

(c) Write to one of the booksellers recommended in Learning by Correspondence.

1.11 (a) Library facilities are available at all Technical Colleges.

(b) Library facilities for Technical College students are made by special arrangement with local municipal libraries.

(c) Library facilities are available at some Technical Colleges and Sydney Technical College.

1.12 Deferred examinations are set for:

(a) All subjects assessed by final examinations.

(b) Students who have difficulty completing the course in time for the first test.

(c) Some subjects, only, assessed by final examination.

(d) Students who enrol late in the year.

1.13 A student who fails Section Test 1 in May but who nevertheless completes all the work necessary to sit for Sectional Test 2 in August can:

(a) Sit for both Sectional Tests 1 and 2 in August.

(b) Sit for Sectional Test 2 and ignore Test 1.

(c) Sit for a Deferred Test in September.

(d) Sit for Sectional Test 1 in August.

1.14 Students resident in the metropolitan area are expected to:

(a) Arrange private supervision for exams.

(b) Arrange to be present at the College of External Studies at the time set for the test.

(c) Arrange either to attend Sydney Technical College or sit the test at their local Technical College.

APPENDIX

Subjects Sectionally Tested

Any alterations to this list will be advised individually.

0638 Commerce (Accounting Procedures) Certificate

0601A	Introductory Accounting
0601B	Commercial Law I
1900A	Business Communication.

0635 Commerce Certificate

0635A	Bookkeeping and Accounts I
0635B	Australian Social and Economic Development
1900A	Business Communication
0635F	Bookkeeping and Accounts II

0632 Valuation of Real Estate

1933F	Report Writing

1909N	Personnel Administration II - Theory
1909P	Psychology IIA
1909Q	Psychology IIB
1909Z	Social Agencies

SECTION 2

BACKGROUND TO AUSTRALIAN LAW

This Section has been designed for the following purposes:

(1) To enable you to understand and experience typical self-learning instruction material provided by the College of External Studies.

(2) To give you a broad outline of the Australian legal system, the outline being basic to legal studies in all business courses.

ORIGINS OF LAW

The law in Australia is derived from English law. Our law is partly made up of Acts of Parliament, known as Statute Law, but a considerable portion of our law is contained in what is known as Common Law and Equity Law.

(1) Common Law, Equity and Statute Law

Common Law and Equity may be described as "Judge made law", or unenacted law, as compared with Statute Law which is made by Acts of Parliament. Common Law and Equity are also sometimes described as "the unwritten law", although this is not an accurate description as the principles of this law as expounded by the judges are recorded in the law reports. These recorded principles form part of our system of precedent.

Common Law was founded on customs of Britain prevailing before the Norman Conquest. Where these customs were accepted by the courts during the Norman period, they were co-ordinated into a uniform body of law known as Common Law. New customs were received into, and accepted as, Common Law up to the thirteenth century, when the principles became fixed, and no new rules were thereafter received into Common Law from the source of customs. The Common Law includes the Law Merchant which is a body of mercantile customs accepted by the courts and embodied in Common Law. Any new and general Mercantile Customs proved in our courts becomes part of our Common Law. This source of Common Law is still open.

Equity Law represents that part of our law not contained in Statute Law or Common Law. Need for equitable administration of law arose where, owing to rigid Common Law rules, hardships were caused where these rules were found inadequate to meet needs not covered by such rules. Parties in many such cases petitioned the King for relief, and he assisted them by referring such cases to the

Chancellor, who dealt with these cases in a court known as the Court of Chancery. This court administered a new system of law by providing remedies Common Law could not supply and by recognizing rights not recognized by Common Law; for example, the recognition and enforcement of trusts. Gradually, a set of rules called rules of equity arose and, in time, became as fixed as rules of Common Law.

The main remedy granted by the Common Law courts was damages. The Equity courts were able to grant remedies such as specific performance of contracts, (compelling performance) and injunction (an order to compel a person to refrain from doing a particular thing).

The rules of Common Law and Equity are no longer dealt with in separate exclusive courts. Courts now administer concurrently the rules of Common Law and Equity in each proceeding before them. In New South Wales the complete application of the principle that Common Law and Equitable rules be administered concurrently was introduced in the Supreme Court of New South Wales as from 1st July, 1972 by the Supreme Court Act, 1970.

Adoption of this system (the "Judicature" system) does not abolish the distinction between Common Law and Equity, but provides for fusion of their administration. Thus, for example, in a case where an action is brought based on Common Law principles and the defendant claims relief on an equitable ground, the judge hearing the case may grant the relief - it is not necessary that the case be transferred to another court. The Law Reform (Law and Equity) Act, 1972, applies similar principles about the raising of equitable and legal defences, to the District Court of New South Wales and the Courts of Petty Sessions. Where any conflict arises between the rules of equity and the rules of common law, the rules of equity prevail.

Statute Law (enacted law) is law prescribed by a Statute (that is, an Act of Parliament). It prevails over Common Law and Equity and includes regulations and rules made under authority of Acts of Parliament. Cases dealing with the interpretation of statutes by the courts are also included in the law reports.

In addition to the above classification of law according to its source in Common Law, Equity or Statute Law, law may be classified in other ways; for example, Criminal Law and Civil Law. Criminal Law deals with the enforcement of laws which prohibit certain acts or defaults harmful to the community or individuals. These laws are enforced by means of penalties such as fines or imprisonment imposed by the court. The action against the offender is brought by the Crown representing the community in general. In a civil law case, on the other hand, the action in a court is brought by one citizen against another, the first citizen seeking a remedy such as damages or specific performance. Civil law deals with the framework of rules and standards for regulating the dealings between individuals and their relationship to each other.

Civil Law includes the law of contracts and the law of torts. Contract Law relates to the effect given to agreements and the remedies for their breach. The law of torts deals with the rights which an injured person has against another, apart from any contract, for damages for injury to his person or property, (that is, a civil wrong). Examples of torts are negligence, defamation, assault, trespass, conversion (wrongfully disposing of the goods of another person) and fraud. It should be noted that some of these wrongs, in addition to giving rise to a civil action for damages for tort by the injured party, may also be punishable in a criminal court. For example, if X assaults Y, then Y may bring civil action against X for damages for medical expenses and other losses. In addition X may have been sentenced to punishment on a charge in a criminal court.

(2) Elements in Our Law

(a) Inherited and Imperial Elements

The statute 9 Geo IV, c 83 (The Australian Court Act), passed in England in 1828, set a date for the application of the laws of England to New South Wales. The Act declared that "all laws and statutes in force within the realm of England at the time of the passing of this Act (25 July 1828) ... shall be applied in the administration of justice in the courts of New South Wales ... so far as the same can be applied ...". English statutes passed after this date did not apply to New South Wales unless expressly or impliedly indicated by the statute. There have not been a great number of these; examples are the Merchant Shipping Act, 1894, and various constitutional enactments such as the Commonwealth of Australia Constitution Act, 1900. From 1828, the local legislatures, the state from 1828, and the Commonwealth since 1901 have continued to vary and add to the law.

A study and review of the Imperial (English) Acts still in force in New South Wales, by the Law Reform Commission, led to the passing by the New South Wales legislature of the Imperial Acts Application Act, 1969. This Act came into operation on 1st January, 1971. The statutes which had not been repealed since 1828 by local enactment were dealt with in three groups:

(i) A small number were expressly preserved. These are mainly constitutional enactment (including for example, part of Magna Carta (no imprisonment contrary to law) and parts of the Habeas Corpus statutes. (A writ of habeas corpus is directed to a person who detains another in custody, and orders him to bring or "have the body" of that person before the court.)

(ii) A number of statutes were repealed, but the substance of parts of these was re-enacted by substituted provisions contained in the Imperial Acts Application Act.

(iii) All other statutes which were made applicable to New South Wales by the 1828 statute 9 Geo IV c 83, were repealed. There were a considerable number of these. Included in the law repealed was the Statute of Frauds, 1677, section four. This statute had been of importance in business law as it had made unenforceable certain contracts such as guarantees and contracts which were to extend over more than one year, unless they were evidenced in writing.

There is also another group comprising a small number of statutes passed before 1828 which applied to New South Wales independently of 9 Geo IV c 83.

These were enactments which were made applicable to New South Wales by express words or because it was clear from the statute that they were intended to apply. For constitutional reasons these statutes have not yet been repealed.

Several English statutes since 1828 have been copied by local legislation with adaption for local conditions; for example, the Sale of Goods Act, the Bills of Exchange Act, and the Partnership Act. The principles in others have been adapted with substantial modification; for example, the Companies Acts in force in the various states.

The interpretation of Common Law and Equity by our courts has been kept fairly uniform with that of England and some other British Commonwealth countries. This has been achieved by having had for a long period a common court of appeal with other British Commonwealth countries (the Privy Council) and by our courts considering English legal decisions (especially those of the House of Lords, the highest English court of appeal).

(b) Federal and State Elements

Under our Federal system of government, the Commonwealth Parliament is given power to pass laws on certain subjects which are set out in the Commonwealth Constitution. On some subjects the Commonwealth is given exclusive power. On others it is set out that it has concurrent powers with the States; that is, either Commonwealth or States could legislate. In the event of conflict between a Commonwealth or State law where there is concurrent jurisdiction, the Commonwealth would prevail. For items not set out in the Commonwealth Constitution the states have exclusive jurisdiction.

The Commonwealth Government has exclusive power on such matters as defence, external affairs, postal services, coinage and customs duties. The Commonwealth also makes ordinances (laws) for its own territories; for example; The Australian Capital Territory.

On a wide range of subjects the Commonwealth and States have concurrent powers. These powers have been exercised by the Commonwealth in some cases to the exclusion of state laws; for example, bankruptcy, negotiable instruments (including cheques), life insurance, marine insurance.

There is overlapping legislation on a number of topics, the Commonwealth law covering cases where there is an interstate aspect, and a corresponding state law covering cases falling purely within the boundaries of that state (intrastate); for example, in the field of industrial law (conciliation and arbitration), sea carriage of goods, and secret commissions to agents.

Much of our Business Law consists of State Acts of Parliament; for example, Sale of Goods, Hire Purchase, Partnership, Auctioneers and Agents, Factors (Mercantile Agents), Bills of Sale, Arbitration (commercial) and Business Names. Income taxation and sales tax are exclusively covered by Commonwealth law and there are also Commonwealth gift and estate duties. Stamp duty, payroll and land tax are taxes levied by State Laws in New South Wales.

Certain powers have been delegated by the State governments to Local Government authorities which have power to make by-laws within a restricted field. With the growing complexity of our society there is a tendency for other powers (both Commonwealth and State) to be delegated to various Boards, Commissions and other authorities. This delegated legislation forms an important part of our Statute Law.

(3) Precedents and Australian Courts

Case law consists of the decisions of judges in cases arising before the courts. These decisions, together with the judge's reasons for their decisions, are included in the various published law reports. These decisions may relate to Common Law, Equity or to the interpretation of Statute Law. When a court decides a new question or problem its decision becomes a precedent in the future and stands as the law on that particular point.

In general a judge is bound to follow the law as laid down in decisions previously given in a higher court; that is, a court to which an appeal from his judgment may lie. It is usual (but not obligatory) to follow previous decisions given in his own courts on points which have not been previously decided at a higher level.

In New South Wales the hierarchy of our courts on the civil (as distinguished form the criminal) side, in ascending order is as follows:

(a) Courts of Petty Sessions

These courts are governed by the Courts of Petty Sessions (Civil Claims) Act, 1970. There are well over three hundred locations in New South Wales where these courts are convened. They are presided over by a Stipendiary Magistrate (S.M.) who is a legally qualified full time State employee.

The jurisdiction of the Court is limited by the amount involved, the type of action, and the territory.

In general, under the Act a magistrate has power to hear and determine claims not exceeding $500. If the amount involved is over $250 the defendant may in some cases require that the action be transferred to the District Court. The jurisdiction extends to both liquidated claims (that is, fixed in amount, as, for example, goods sold and delivered or money lent) and unliquidated claims. Examples of unliquidated claims are damages for breach of contract and for negligence in a motor vehicle smash.

Jurisdiction in certain cases is expressly excluded; for example, where the validity of a gift under a will is disputed.

In general, actions may be brought either in (a) the court in the district where the defendant carries on business or usually resides, or in (b) the courts in the district in which the debt was contracted or the liability for the damages arose. If the action is brought in another district the defendant may elect that the action be transferred to (a) or (b) above.

A successful plaintiff may recover costs such as those for obtaining the summons and for service. Professional costs for solicitor's or barrister's fees are not recoverable unless the amount at issue exceeds the prescribed amount of $40.

There is no appeal from a judgment or order of a court under the Act except on a point of law, when an appeal may be made by the dissatisfied party to the Supreme Court.

(b) The District Court of New South Wales

The District Court of New South Wales is the next highest court in the state court structure. The present court was formed by the District Court Act, 1973, which came into force on 1st July, 1974. This Act repealed the District Courts Act, 1912, and abolished the previous District Courts.

Sittings of the Court are held at various proclaimed cities and towns throughout the state during the year. Each hearing is presided over by a judge, either sitting alone, or with a jury of four in the limited circumstances permitted by the Act. (A jury in criminal cases comprises twelve persons.) In addition to the jurisdiction given by the Act a number of other statutes refer questions to the District Court for determination; for example, application to extend time for registering Bills of Sale under the Bills of Sale Act. (A Bill of Sale is a form of mortgage or security over personal chattels such as furniture or motor vehicles.)

The limits to the jurisdiction of the Court are set out in the Act and vary according to the type of proceeding. Actions are in general limited to $10,000. Should a verdict, however, be found for more than $10,000 an amount may be recovered up to $15,000. Also, claims exceeding $10,000 may be dealt with the defendant's consent. Jurisdiction in certain equity proceedings is limited to $5,000. There are also limitations on

the place where an action may be heard. If an action is brought other than at the nearest proclaimed place to one of the following (a) the defendant's residence (b) his place of business or (c) the place where the cause of action arose, the Court may transfer the hearing to such proclaimed place as it thinks proper.

The District Court also has jurisdiction, under a variety of statutes, to hear appeals from the decisions of various officials and tribunals.

(c) The Supreme Court of New South Wales

The Supreme Court is the highest court in the structure of state courts in New South Wales. The Court has unlimited jurisdiction, subject to constitutional limitations, for the administration of justice in New South Wales. Some matters, however, are excluded by Statute and referred to special courts or tribunals (for example, in the field of Industrial Arbitration).

The Supreme Court of New South Wales is divided into:

(i) The Court of Appeal, and

(ii) Various divisions exercising original jurisdiction (i.e., with power to hear cases for the first time).

The Divisions into which the original jurisdiction is divided for convenience, include: Common Law, Equity, Admiralty (Maritime affairs; for example, claims for salvage for saving ships in peril at sea), Divorce (although Commonwealth Statutes govern Marriage and Divorce, administration of these statutes has been delegated to State Courts), Protective (relating to the affairs of mentally incapable persons) and Probate (proof of wills, and administration of deceased estates). Hearings are before a judge, together with (where appropriate) a jury of four.

Although separate Divisions exist for Common Law and Equity, the rules of Common Law and Equity are administered concurrently in each hearing before the Court. (See earlier in this Unit under the heading "Equity Law".)

Provision is made for the entry of certain commercial cases on a "commercial list" for accelerated hearing and decision.

The Court of Appeal hears appeals from the original jurisdiction of the Supreme Court and from inferior courts and tribunals. Hearings are before any three or more of the Judges of Appeal.

(d) The High Court of Australia

The High Court was created in 1901 by the Commonwealth of Australia Constitution Act. This Court has both original and appellate jurisdiction. The original jurisdiction of the High Court is limited to certain specific areas, for example, matters arising under the Constitution or involving its interpretation, certain disputes between residents of different states, actions between different states or between the Commonwealth and a State.

The High Court is Australia's general court of appeal in most cases of importance from State Supreme Courts. It also hears appeals from the original jurisdiction of the High Court, special Federal Courts; for example, the Bankruptcy Court, and from state courts exercising Federal jurisdiction (under various Commonwealth statutes, state courts, including the lower courts in some instances, are vested with Federal jurisdiction under the statute). The Court, on appeals, is constituted by two to seven judges depending on the matter to be dealt with.

(e) The Privy Council

There is at present a very restricted right of appeal from Australian courts to the Privy Council.

In addition to the above courts there are a considerable number of special courts; for example, the Commonwealth Bankruptcy Court and both State and Commonwealth Industrial Tribunals. Special State courts include the Workers' Compensation Commission, Land and Valuation Court, and Mining Courts. In some cases appeals may be made from these courts; in the case of Commonwealth Courts direct to the High Courts, and for State courts, to the Supreme Court of New South Wales.

(4) Particular Legal Conceptions

The parties to legal transactions may include:

(a) Natural persons - that is, human beings (as contrasted with corporations which are "artificial persons" at law).

(b) Partnerships - a partnership (or firm) consists of two or more persons carrying on business in common with a view to profit. The maximum number of persons in a partnership is limited to twenty, except for professional partnerships such as those of solicitors where the limit is fifty, and accountants where the limit is one hundred.

(c) Corporations - a corporation is a body of persons regarded by the law as having an existence, and rights and duties distinct from those of the individual persons who from time to time form it. A corporation is an artificial person created by law. It has perpetual succession; that is, it is not dissolved by the death of any of its members. It may enter into contracts through another person or persons acting as agent. It may sue and be sued in its own right. A corporation, through its agents or employees, could be liable for damages in tort; for example, negligence. It could be liable for certain criminal acts committed by those in control in exercise of its powers and could be subject to fines.

The most common type of corporation is the company limited by shares and formed by registration under the Companies Act, 1961 (as amended). In this type of company the liability of each member (i.e., shareholder) to contribute to the assets of the company is limited to the face value of the shares he holds. For example, face value of each share is $1; the amount paid up by each member is 75c. The member here could not be called on to contribute more than a further 25c per share to the company.

A partnership differs from a limited liability company in several important ways. Firstly the liability of the partnership members to contribute towards the liabilities of the firm is unlimited. In addition, since the partnership is not a legal entity (or person) separate from its members, contracts are made by the partners jointly and legal actions must be brought by or against the partners as individuals. A partnership,since it does not have perpetual succession,is automatically dissolved by the death of a member. The remaining partners, subject to the rights of the deceased partner's estate, may, of course, on death of a member, immediately agree to form a new partnership.

Under the Business Names Act, 1962, (as amended) provision is made for the registration of business names.

A person shall not alone or together with other persons carry on a business in the State unless using

(i) The surname together with Christian name or names (or initials of Christian names) of the person or persons involved.

or

(ii) a name registered under the Business Names Act.

This Act also applies to corporations as well as sole traders and partnerships. If a company wishes to carry on business other than under its corporate name it must first register the business name it intends to use.

The registration of certain names is prohibited, for example, those that may be confused with an existing registered business name or a name registered under the Companies Act. Certain other words such as Crown and Royal and names suggesting connection with Commonwealth or State departments and other such as Trustee, Bank and Anzac are restricted. Registration may be refused of any name considered misleading or undesirable.

Registration is for three years, but may be renewed by re-registration. Any change in ownership of the business or change in the partnership must be registered. The Corporate Affairs Commission, in addition to administering the Companies Act, also administers the Business Names Act. Any member of the public may, by paying a fee, ascertain from the office of the Commission the details on record relating to the persons who have registered the business name.

(5) Division of Property

(a) Real property consists of land plus things attached to the land; for example, a house or a factory, trees, fences, concrete paths and other fixtures. An article which was intended to become permanently attached and which cannot be removed without considerable damage to the house or land (or to the article) would be considered, until proved otherwise, a fixture.

(b) Personal property consists of any property other than real property. It consists of choses (things) in possession; that is, tangible personal property such as furniture, a car, and choses in action; that is, non-tangible personal property such as a debt owing, goodwill, shares in a partnership or company, patents, and copyright.

The main distinction between real and personal property is that different methods are used in transfer. The distinction between what is a fixture and what is a personal chattel could be important in a contract for the sale of land and buildings in deciding exactly what has been acquired by the purchaser. Items in doubt may be specially mentioned in the Contract of Sale. Similar problems about what is a fixture might arise between a landlord and a tenant.

GENERAL POINTS OF LAW

Comparison between basic legal notions: Contract - Tort - Criminal Law.

Contract

A contract is an agreement made between two or more persons which the law regards as legally binding on them in the sense that any breach or non-performance of the obligations thereunder entitles the person not in default to recover a money compensation which is known as damages.

Note that although contracts are sometimes very formal and involved documents (for example, deeds which have been drawn up by Solicitors which are involved formal legal documents) it is generally not necessary to have this formality (for example, a contract is made by words and actions when a person steps into a taxi or onto a bus).

Thus the majority of contracts may be made on an informal level (that is, the parties intend to contract, they are aware as to the subject matter that they are agreeing about, they both are capable of making the agreement and neither is having his will oppressed or taken from him, and the subject matter they are agreeing to contract about is one which they both are aware is not illegal; they have then both formed a valid and binding legal agreement, and the agreement is one where if necessary the parties can sue each other for damages arising out of the other party's breach of contract).

Tort

A "tort" is a civil wrong; that is, a breach of a civil duty owed by one person to another, and the breach causing damage to the party owed the duty.

A tort is often defined by pointing out what it isn't; that is, it isn't a contract because a contract is a special agreement entered into a legal relationship which wouldn't exist only that the parties have decided that it should. A tort is not a crime because a crime is a wrong where the punishment is exacted by the State on behalf of the community whereas with a tort the punishment is exacted by an individual on behalf of him or herself.

However, the vital point to note with relation to a tort is that it is not the point that one individual has hurt another that automatically entitles a person to sue - it is only where the hurt has been effected in an area in which the law extends its protection.

It is well to look at the constituents of torts - that is, the type of duties which the law states that one individual owes to another individual not to injure that other individual.

(a) Assault and Battery

This tort comprises the application of force to a person without his consent. Touching a person on the shoulder is technically a battery under this heading. Although the term "assault" is usually employed to indicate the actual application of the force, technically this is not correct. Assault really means the placing of the person hurt in such a position that he apprehends the immediate application of force.

Note that the assault does not always have to be a blow; it may be the taking away of a chair when a person is sitting down.

Thus it is as well to inform employees that they may incur a liability for damages simply by placing a person in fear of being the subject of a battery with the result that the person "starts" back, falls over, and injures himself.

(b) False Imprisonment

This may be constituted by a wrongful arrest, but may also take the form of some other deprivation of liberty, for instance, locking a person in a room.

(c) Defamation

This consists of the publication of a statement of a type which is likely to hold up the plaintiff to social ridicule, hatred or contempt or is likely to injure him in his profession or trade.

(d) Trespass

This is the physical occupation or interference with the land or goods of another.

(e) Nuisance

Private nuisance consists of acts done by your neighbour in and about his occupation of his property which amount to an interference with your normal comfort and enjoyment in so far as you are an occupier of property which is reasonably adjacent (for example, setting up a machine shop and running the machines at odd times).

Public nuisance consists of conduct which restricts the rights of the public; for example, digging up of a ditch in the highway and leaving it exposed - however, an individual can only complain if he has suffered a special damage to him over and above the general inconvenience suffered by the public. (Note - Public nuisance is also a crime.)

(f) Negligence

This deals with non-intentioned harm which occurs through the defendant failing to be sufficiently careful - the only people who can sue are people who the law says are owed a duty of care by the defendant. Thus the fact of the duty to take care can be illustrated by the most common of cases in the courts; for example, where drivers of motor vehicles who have defined duties of care to other people; for example, users of the road such as other drivers or pedestrians, fail to live up to the standard of care which would be exhibited by a reasonable man - for example, he drives in a reckless manner; that is, he speeds, or drives on the wrong side of the road, and so on; for example, he does things which a reasonable man would certainly not do, or he exhibits conduct which would not be exhibited by a reasonable man.

An interesting point with respect to negligence is that fairly recent law has allowed for contribution or sharing of damage; that is, if both the Plaintiff and the Defendant have been equally negligent then the court will apportion damage in respect to the respective negligence of the parties.

Criminal Law

The concept here is that the individual has committed a public wrong against the community. The State takes the action on behalf of the community; the objective being that the State will punish the individual on behalf of the community. However, with some torts it is hard to distinguish them from crimes, but clearly it is a crime if the penalty or money amount is paid to the State rather than to an individual.

The criminal law generally requires some intentional doing of harm; that is, that an individual intended to harm the community by injuring one of its members or by stealing from its members - the State then punishes the offender on behalf of the community.

WORK TO BE FORWARDED WITH YOUR ENROLMENT FORM

Answers to be on ruled foolscap paper and affixed securely to enrolment application.

Please do not copy portions of the unit; your answers must be in your own words and show that you comprehend the concepts involved.

Do not forget to include your answers to Section 1 questions from pages 11 and 12.

2.1 In your own words compare the origins of the systems of Common Law and Equity.

2.2 What would be the logical reason for the rule that the rules of Equity prevail over the rules of Common Law, in the event of a conflict between the two systems?

2.3 What is the difference between Civil law and Criminal law?

2.4 Why do some English Statutes still have application in N.S.W.?

2.5 Outline your concept of how the Federal system originated in 1901 (i.e., the system of States having certain powers and the Federal Government having certain powers).

2.6 What is your understanding of the system of precedent as it applies in the courts in N.S.W.?

2.7 Give a brief outline of the role and functions of the following courts:

(a) The Court of Petty Sessions

(b) The District Court of N.S.W.

(c) The Supreme Court of N.S.W.

(d) The High Court of Australia

(e) The Privy Council

2.8 State the ways in which a partnership differs from a corporation

2.9 What is the difference between registration of a business name and registration of corporate name?

2.10 What do you consider to be the difference between Real Property and Personal Property?

2.11 What is your understanding of the formalities and functions of contracts?

2.12 What is the purpose served by the law of tort?

2.13 Give your understanding of the elements of the six torts outlined in the unit.

2.14 What is the role and function of criminal law?

NEW SOUTH WALES

DEPARTMENT OF TECHNICAL EDUCATION

COLLEGE OF EXTERNAL STUDIES

0635 COMMERCE

0638 COMMERCE (ACCOUNTING PROCEDURES)

These are two of the certificate level courses from the Department of Commercial Studies in the School of Business and Administrative Studies offered by the College of External Studies.

The Commerce (Accounting Procedures) Certificate is designed for students actively engaged in accounting duties whilst the Commerce Certificate covers wider aspects of administration. To decide what course to take discuss both courses with your employer, keeping in mind where you expect to be in, say, five to ten years' time.

Both courses satisfy the academic requirements for admission to the membership of the Institute of Affiliate Accounts, and associate status of the Association of Practising Accountants.

HOW TO ENROL

Applicants for enrolment in Commerce and Commerce (Accounting Procedures) Certificates are required to study and return answers to questions in a preliminary lesson unit.

The preliminary unit gives information on how to study by correspondence and related matters. When you have completed your answers to the preliminary unit questions please follow the enrolment procedure steps 1 to 6 inclusive.

0638 COMMERCE

As already mentioned this course tends to be of a broader nature than Commerce (Accounting Procedures). You can see that in Commerce (Accounting Procedures) almost every subject is closely associated with accounting. In the Commerce Certificate subjects such as Australian Social and Economic Development, Organisation Theory, Work Study and Personnel Management help provide more of an overall view of an organisation.

Most students would take a minimum of four years (one stage per year) to complete the course.

The course outline is as follows:

Stage I

0635A Bookkeeping and Accounts I
1900A Business Communication
0635B Australian Social and Economic Development

Stage II

0635F Bookkeeping and Accounts II
0636B Business Law
0635G Organisation Theory

Stage III

0635L Bookkeeping and Accounts III
0635M Office Management
0635N Introduction to Data Processing

Stage IV

0635R Introduction to Management Accounting
0635S Work Study
0635T Personnel Management
(two electives)

Electives

0635U Principles of Internal Control and Taxation
0622A Credit Theory and Practice
0601P Taxation Law and Practice (counts as double elective)

TEXTBOOKS FOR STAGE I

Bookkeeping and Accounts I

Bookkeeping and Accounting Procedure, (with supplement, 1971), J.H. Bruce, Bruce Ryland and Company.

Objective Tests Bookkeeping and Accounts I, J.H. Bruce, Bruce Ryland and Company.

The above books are available from University Co-operative Bookshop, Sydney Technical College.

Australian Social and Economic Development

The Economic Development of Australia, A.G.L. Shaw.

The Australian Story and Its Background, B. Mitchell.

Descriptive Economics, F.T. Nankervis.

Business Communication

There are no required texts for this subject.

ENTRANCE REQUIREMENTS

To enter the Commerce Certificate course you should have passed four subjects in either the New South Wales School Certificate (or its equivalent). Two of the four subjects must be Mathematics and English and these must be passed at least at ordinary level.

You do not have to be in accounts work to enter the course thought practical experience would help you to understand your studies better.

0601 COMMERCE (ACCOUNTING PROCEDURES) CERTIFICATE

This course provides fairly specialised training in accounting procedures. It tends to be geared to the needs of those students who feel they will be involved in detailed auditing and accounting.

As with the Commerce Certificate most students would take a minimum of two years (one year per stage) study to complete the course.

The course outline is as follows:

Stage I

0601A Introductory Accounting
0601B Commercial Law I
1900A Business Communication

Stage II

0601G Introductory Auditing
0601H Commercial Law II
0638E Financial Accounting

Stage III

0638V Company Law and Accounts
0601P Taxation Law and Practice
0635N Introduction to Data Processing

Stage IV

0601R Advanced Financial Accounting
0602S Auditing and Investigations
0601T Management Accounting
0601N Monetary Theory

TEXTBOOKS FOR STAGE I

Introductory Accounting

Bookkeeping and Accounting Procedures, J.H. Bruce, Bruce Ryland and Company, 1973.

or

Introductory Accounting, A.T.A. Book Committee, New South Wales University Press, 1973.

Commercial Law I

Australian Mercantile Law, Yorston and Fortescue, latest edition.

Business Communication

There are no required texts for this subject.

ENTRANCE REQUIREMENTS

To enter the Commerce (Accounting Procedures) course you must have four subjects in either the New South Wales School Certificate (or its equivalent). Two of the four subjects must be Mathematics and English and these must be passed at least at ordinary level.

CORRESPONDENCE COURSE - STAGE I

SYNOPSIS AND BOOKLIST

SYNOPSIS

This subject is assessed by sectional tests co-ordinated with marks achieved for lesson units. Sectional test points are shown in the Synopsis. Each test can be sat for in May, August, or November. To pass a section, 50 out of a possible 100 marks must be gained in the test and 40 out of a possible 100 marks must be gained for lesson units, provided that the combined mark is not less than 100.

UNIT NO.	TOPIC
1	The Social Background of Bookkeeping; Buying and Selling. Recording of Business Transactions. Classification of Industry and Commerce. Basic Principles of Bookkeeping.
2	Assets, Capital, Liabilities, The Bookkeeping Equation.
3	Debits, Credits and Ledgers. The Ledger Account and its Purpose. Rules for Debiting and Crediting an Account.
4	Review. The Journal. Assembling Information. The Purchasing Function. The Purchase Journal. Chart of Accounts, Use of Folios. The Returns Outwards and Allowances Journal. The Trial Balance. Discovery and Rectification of Errors in a Trial Balance.
5	Review of Unit 4. Sales Journal. Returns Inwards and Allowances Journal. Posting to the Ledger.
6	Review of Unit 5. Cash Journal. Control over cash. Cash Receipts Journal. Cash Payments Journal. Dishonoured Cheques.
	SECTIONAL TEST I
7	Review of Unit 6. The General Journal. Opening Journal Entry. Posting to the Ledger. Recording less Common Transactions.
8	Revision. Trial Balance. Preparing a Trial Balance from Lists of Ledger Account Balances.
9	Bank Reconciliation Statements and their Preparation.

UNIT NO.	TOPIC
10	Correction of errors.
11	Petty Cash Book.
12	Summarising financial data. Preparation of Revenue accounts. The Trading Account, the Profit and Loss Account in the General Ledger.
13	Presentation of financial results. Trading statement, Profit and Loss statement, combined revenue statement.
14	Summarising financial data. Balance Sheets - conventional form. Balance sheet approach to results and use of the accounting equation.
15	Presentation of financial position. Statement form of balance sheet ("narrative" or "vertical" form). Analysis of financial statements - introduction.
16	Balance day adjustments. Depreciation, expenses and income accrued and paid in advance, provisions. Use of ten column work sheets in preparation of results.
17	Subsequent accounting periods. Commencing entries. Introduction to opening books for a partnership, the elementary treatment of capital and drawings in a partnership.
	SECTIONAL TEST II
18	Manufacturing accounts.
19	Sectional Ledgers. Introductory.
20	Sectional ledgers. Contras, further subdivision of ledgers, control accounts in subsidiary ledgers and tabular form of General Journal.
21	Departmental accounts. Scope, purposes and requirements of departmental accounts. Use of analysis or columnar journals. Ledger dissection. Departmental stock transfers.
22	Departmental accounts. Final revenue accounts on a departmental basis. Problems encountered. Expense distribution and methods. Subdivision of Debtors' and Creditors' Ledgers in conjunction with departmental accounts.
23	Accounts of clubs and societies. Types of organizations. Terminology used, entrance fees, members' subscriptions.
24	Accounts of clubs and societies. Trading operations, other income, expenditure, final accounts - working accounts, Revenue Account and Balance Sheet.
25	Dissolution of a business (sole trader).
26	Office equipment. Reasons and purposes of using. Classification of machines and equipment, types in each classification, functions and uses. Advantages of machine accounting.
27	Revision.

T O P I C

Unit 1 — Introduction to Law
Law of Contract-Introduction
The Intention of Creating Legal Relationships
Offer and Acceptance

Unit 2 — Essential Elements of a Contract (Continued)

Unit 3 — Contracts-Essential Elements (Continued)
Consent of Parties:
Mistake, Misrepresentation - fraudulent innocent
Duress. Undue influence

Unit 4 — Essential Elements of a Contract (Continued)
Legality of Object
Discharge of Contract

Unit 5 — Remedies for breach of contract
Operation of contract

Unit 6 — PRINCIPAL AND AGENT

SECTIONAL TEST I

Unit 7 — SALE OF GOODS

Introduction, formation of contract
Transfer of property; title

Unit 8 — Conditions and warranties
Performance, delivery
Rights and liabilities of buyer and seller
Breach of contract
Auction sales.

Unit 9 HIRE-PURCHASE, BAILMENTS

Introduction to hire-purchase Law
Statutory provisions
Implied conditions and warranties in hire-purchase
Allied transactions
Credit Sales Agreement Act
Types of bailment
Rights and liabilities of bailor and bailee
Common carriers, innkeepers

Unit 10 GUARANTEES, SHIPPING

Characteristics of a guarantee
Liability of guarantor
Rights and discharge of guarantor
Ships, sea carriage of goods
Bills of lading and charterparties
Salvage
Statutory provisions
Terms and definitions.

SECTIONAL TEST II

Units 11-16 REVISION QUESTIONS

SECTIONAL TEST III

SYNOPSIS and BOOKLIST

SYNOPSIS

This subject is assessed by sectional tests co-ordinated with marks achieved for lesson units. Sectional test points are shown in the Synopsis. Each test can be sat for in May, August or November. To pass a section, 50 out of a possible 100 marks must be gained in the test and 40 out of a possible 100 marks must be gained for lesson units, provided that the combined mark is not less than 100.

Unit No.	Topic
1.	Aim and scope of the course; communications good and bad; the various ways of using language; the characteristics of business English.
2.	Organization of ideas; appropriateness to purpose, reader and situation; organization of outline for report writing - exercises on outlining.
3.	Methods of vocabulary extension for clarity of ideas; for example, by roots, word families and use of dictionary; words commonly confused.
4.	Further aids to clarity of writing by avoiding ambiguity and obscurity; punctuation.
5.	Techniques of persuasive writing; connotation of words and phrases for a particular situation; presentation of persuasive material; levels of formality required.
6.	Conciseness achieved by eliminating unnecessary words; condensing of ideas and omitting irrelevant details.
	SECTIONAL TEST I
7.	Development of coherence by understanding the structure of the paragraph and the various techniques of expressing ideas, arguments and descriptions.
8.	Further work on development of coherence within the paragraph by study of arrangement and connection of ideas and proper proportion in terms of writer's purpose.
9.	Development of skills in précis writing; grasping the main idea and seeing relationship between grammatical patterns and ideas.
10.	Methods of increasing effectiveness in writing by: (a) use of concrete rather than abstract vocabulary; (b) use of active rather than passive constructions; (c) use of forthright rather than timid or circuitous statements.
11.	Further development of effectiveness of expression by study of the word order and function of basic sentence patterns.

Unit No.	Topic
12.	Further development of effectiveness through use of emphasis by: (a) repetition of parallel forms and structures; (b) repetition of appropriate sentence patterns; (c) attractive layout.
13.	This unit has been withdrawn. There is now no Unit 13.
14.	Introduction to letter writing; layout; spelling.
15.	Guiding principles in choice of [illegible] sentence patterns and types of paragraphing; planning outline of the letter.
16.	Expression of a wide range of tone and attitude in business and official letters.
17.	Requirements of style for routine letters (memoranda and form letters) and individual letters (such as answers to enquiries, letters of complaint, letters of application).
	SECTIONAL TEST II
18.	Report writing; types of reports; methods of organising and writing the full-length analytical report.
19.	Memo and letter reports; non-verbal aids in report writing.
20.	Research methods, organising of material and development of an interesting style for writing of the technical article.
21.	Study of essential aspects of effective oral communication; voice; bodily action; relationship to audience in: (a) interviewing; (b) the business conference.
22.	Clear thinking; some qualities of straight thinking; deduction; inductive generalisation; fallacies in deductive and inductive logic.
	SECTIONAL TEST III

BOOKLIST

There are no compulsory textbooks for this subject, but the student will find the following books of use for background reading.

Handbook of Practical English (Whitcombe and Tombs), R. Corish.

Usage and Abusage (Penguin), E. Partridge.

The Complete Plain Words (H.M.S.O.), E. Gowers.

Clear Thinking, R. Jepson.

The Essentials of Report Writing (Australasian Publishing Company), V. R. [illegible].

Oral Communication of Technical Information (Reinhold Publishing Corporation), R.S. Casey.

Effective Speaking in Business (Prentice-Hall), Huston, Sandberg

Public Speaking (E.U.P. Teach Yourself Series), P. Westland.

Tips on Talking, British Association for Commercial and Industrial Education.

Dictionaries. If you do not already possess a fairly large dictionary you would find one of these useful:

Chambers's Twentieth Century Dictionary.

H.C. Whylde's Universal English Dictionary.

The Concise Oxford Dictionary.

CODING - Market Level

Whilst not wanting to encourage the stratification of education, the level of students' aspirations is relevant to administrative and educational solutions. Not only has there been considerable overlapping, some very arbitrary decisions have been made on the basis of uncertain personal definitions. This was especially the case with "adult, continuing, further, and junior college". Even given precise and clear definitions, I do not have the knowledge to accurately classify; these codings, then, must be taken as only crudely indicative.
